

Your route to becoming a more competent and safer driver...

For more information on **Pass Plus+** and road safety generally please visit our website at [crsp.co.uk](http://crsp.co.uk)

For 17 to 24 year olds

Your route to becoming a more competent and safer driver...

Young drivers who have just passed their driving test are more at risk of harm whilst driving on the roads of Cumbria than any other age group. Young drivers can become involved in road traffic accidents due to their lack of experience, skill, knowledge, maturity or simply a poor attitude to driving.

The Pass Plus+ scheme, delivered by local driving instructors provides post-test driving tuition that is designed to add to the experience, skill and knowledge of the young novice driver.

Passing the driving test is only the first stage in learning to drive.

Pass Plus+ can help to protect the life of loved ones, whereas insurance, whether provided by traditional means or through telematics (black box) technology will not.

Parents often support their Children to drive through the use of their vehicle or contribute towards the cost of a vehicle once they've passed their test.

Could the completion of a Pass Plus+ course be made a condition of your support?
